Reference: 26th July 2017

Contract Project Building Services has been asked to supply a reference to Premium Glass.

We would like to confirm that we have worked with Premium Glass for a number of years this is due mainly to their understanding of our requirements as a main contractor.

We confirm that Premium Glass continually deliver a high quality product in a timely manner as agreed at the point of order, we have recently completed 20 bathrooms within 6 apartments for one of our long established clients on a 12 week contract, every bathroom required a bespoke shower enclosure solution along with glass shelves, all of which Premium Glass delivered on time without any delay to the highest possible standards.

Fitters: All the fitter employed by Premium Glass measure their own work and process the order therefore reducing the need to explain to the fitter when he arrives as to his duties, this really works!

Cost: We regularly price check Premium Glass with other similar companies and have as yet to find a company that can compare in terms of price, quality and delivery.

Yours sincerely

Andrew Nash
(Director).
