Re Glass Premium

I was recommended to Glass Premium from a specialist glass supplier for a very special and challenging project which included glass walls, handmade glass tiles and sheets of templated tempered glass.

Glass Premium were an inspiration to deal with. Not only did have all the answers to my question but found ways to implement the complicated design and install seamlessly where others were not up to the challenge.

The end product is a unique shower, steam, spar room of unrivalled quality and sophistication. Glass Premium certainly lived up to their name and delivered a premium product. Peter was a pleasure to deal deal with nothing was too much trouble. All the staff and fitters were exceptionally professional, reliable, polite, conscientious and respectful to my house and my family.

I would 100% recommend glass premium and I will certainly be using them for other projects in the future.
